## 1. Qualitative Information Regarding the Consolidated Results for the First Nine Months under Review

### (1) Information Regarding Consolidated Business Results

During the first nine months of the consolidated fiscal year under review, the global economy remained in difficult conditions due to the adverse effects COVID-19 generated through its global spread. In Japan, corporate earnings showed a substantial decline under the negative effects of COVID-19. However, in circumstances in which social and economic activities were gradually being resumed, personal consumption and production showed signs of a recovery.

In the housing market in Japan, the number of new housing starts decreased, reflecting the effects of a decline in reaction to the consumption tax hike which had continued from the previous year, in addition to the effects of self-restraint on sales activities exercised in connection with efforts to prevent the spread of COVID-19. As a result, severe conditions continued for orders received across the market. Market conditions remained unpredictable, even though signs of a recovery emerged with the phased resumption of economic activities.

Under these circumstances, the Company prioritized the safety of customers, suppliers, affiliates and employees, and continuously took measures and provided responses necessary to control the spread of the disease. The Company continued its initiatives to propose plans to customers through a web conference system in sales activities for the custom detached houses business and the remodeling business. It also focused its efforts on sales activities targeting corporations in the rental housing business. Simultaneously, the Company gradually resumed sales activities through open houses and so forth.

In the Overseas Business, sales fell temporarily in the housing market in the United States as the number of people infected with COVID-19 grew. However, sales in the market recovered and stayed high, partly buoyed by historically low mortgage rates.

To mark the 60th anniversary of its founding, the Company has adopted "Make home the happiest place in the world" as its global vision for the next 30 years, and has established the goal of becoming a global company that offers integrated proposals of technologies, lifestyle design and services, based on the residential domain. It has also formulated a fifth mid-term management plan (FY2020-FY2022) and established "Further strengthening core businesses and embarking on new businesses" as a fundamental policy under the management direction, "Deployment of growth strategies focused on the residential business domain."

As initiatives for new businesses, the Company continued developing the Platform House to aid happiness in the era of living 100 years while advancing initiatives for launching HED-Net, the world's first in-home early acute-disease detection network.

In addition, the Company opened six Fairfield by Marriott hotels adjacent to *Michi-no-Eki* stations in four prefectures in October 2020 in cooperation with 25 prefectural governments and 34 partner companies through the Trip Base *Michi-no-Eki* Stations Project executed with Marriott International as a regional revitalization project. In the Project's first stage, the Company will successively open 15 more hotels in six prefectures by the spring of 2022.

Furthermore, the Company will launch the industry's first one-stop service that uses blockchain technologies to simplify the tedious process of moving into rental housing by the end of fiscal year 2020.

Business results by segments are as follows. It should be noted that new reportable segments apply from the first quarter of the consolidated fiscal year under review and that the comparison and analysis of figures for the first nine months ended October 31, 2020 are based on the new reportable segments.

### <Built-to-Order Business>

### (Custom detached houses)

In the custom detached houses business, the Company put on the market Family Suite Ouchi Premium, incorporating new lifestyle proposals linked with greater time spent at home into the Family Suite born out of a study of houses where people become happier as they reside longer. In addition, the Company opened Minna no Kurashi 7 Stories, a lifestyle-based model house where its diverse proposals for happy living and technologies supporting them can be experienced all at once, within the Kanto Sumai no Yume Kojo facility.

Due to the spread of COVID-19, however, sales activities were affected by the cancelation of promotional events and orders received decreased. However, orders received decreased due to the reduction in sales activities and visits, reflecting the spread of COVID-19. The expanding pandemic adversely affected sales activities in ways such as self-restraint on events for promoting sales, Under these circumstances, orders showed signs of recovery in recent months, including a sustained year-on-year increase, thanks to the phased relaxation of restrictions on sales activities.

In China, the delivery of a condominium in Suzhou progressed smoothly. In Australia, the Company reviewed its earnings plan for the condominium business. Net assets increased by \$14,173 million to \$1,321,023 million as a result of posting profit attributable to owners of parent, which more than offset dividend payments and a decrease in translation adjustment.

## (3) Information Regarding Consolidated Results Forecast
