

## Green Solutions Awards 2017 2nd Place Worldwide in Sustainable City Grand Prize

Sekisui House, Ltd. won 2nd place worldwide for the Sustainable City Grand Prize at Green Solutions Awards 2017, announced on November 15, in response to COP23 held in Bonn, Germany, because of its highly evaluated actions on the Net Zero Energy House "Green First Zero." Sekisui House is the first Japanese company to win the prize.

- Awarded at Green Solutions Awards 2017, announced in response to COP23
- 2nd Place worldwide in the Sustainable City Grand Prize category
- First Japanese company to win the prize

"Green Solutions Awards 2017" is a global award system related to climate change measures, organized by Construction 21 with the assistance of the Global Alliance for Buildings and Construction. The awards fall under three major categories, Construction, City and Infrastructure, as well as 16 subcategories. Sekisui House applied for the Sustainable City Grand Prize, one of four Grand Prizes. As a result of careful consideration against a wide range of requirements, our project was highly evaluated among 12 advanced cases worldwide, resulting in the prize.

Moving forward, Sekisui House will promote actions on climate change measures as an "Eco First Company" that has promised the Minister of the Environment to take advanced environmental actions.
